

Public Consultation on the Revision of the Interpretive Note to Recommendation 8

Non-Profit Organisations (NPOs)

The NPO sector and the threat environment in which it operates have evolved, governments' experiences in implementing Recommendation 8 have advanced, and self-regulatory mechanisms have also evolved. The FATF therefore sees the need to revise the Interpretive Note to Recommendation 8, as a matter of priority, to align with the results of the [Typologies Report](#) and the recently updated [Best Practices Paper](#).

The FATF wishes to receive your views and specific proposals to the text of the Interpretive Note to Recommendation 8, in English or French, to FATF.NPOconsultation@fatf-gafi.org no later than **Friday 27 November, 18:00, CET**.

Please note that this exercise is intended to be a focused revision of the Interpretive Note to Recommendation 8 and the FATF currently has no plan to re-open the revision of the FATF Standard as a whole.

Due to resource constraints, the FATF Secretariat can only accept input which is submitted according to the instructions and following the template, and/or is submitted before the above deadline.

The FATF will not be able to consider any submission that does not meet the above criteria.

At its next meeting in February 2016, the FATF will discuss the input received through this consultation process and will determine the next steps towards finalising the Interpretive Note to Recommendation 8 later in 2016.

For further details concerning this public consultation, please see:

The Council on Foundations welcomes this open consultation on revision of the Interpretive Note (IN) on FATF's Recommendation 8 (R8). It is important to bring both the IN *and* R8 itself in line with the risk based approach in order to avoid over-regulation and disrupt the work of philanthropic organizations making charitable grants around the world. In addition to addressing the IN, we urge FATF to remove language in R8 that states the non-profit (NPO) sector as a whole is "particularly" vulnerable to terrorist abuse.

Evidence shows that the incidence of abuse in the non-profit sector is rare, and foundations that work globally use checks and balances above what the law requires to ensure their charitable grants benefit legitimate charitable organizations. The NPO sector is vibrant and diverse, and it is inaccurate and imprecise to label a broad sector as vulnerable to abuse. The current language sends a message that the entire NPO sector is inherently high-risk, contributing to the over-regulation of the sector in many individual countries around the world.

This trend is alarming and highly problematic; as countries impose restrictive domestic regimes with disproportionate burdens to entry for grantmakers, millions of charitable dollars are diverted elsewhere or simply not granted at all. Overly restrictive laws and regulations that are not proportionate to risk lead to a tremendous loss of charitable dollars and human capital in some of the world's most needy countries. These laws, many of which are inspired by R8, also make it prohibitively burdensome for grantmakers to respond swiftly in regions hit hard by unexpected natural and manmade disasters.

To address the issue of risk proportionality, the Council on Foundations supports the IN language revisions put forth by the Global NPO Coalition on FATF. The IN should make it clear that countries should take a targeted and proportionate approach, with a risk assessment that takes into account the diversity of the NPO sector as the first critical step. Following this risk-based approach, actions to mitigate risk should only be applied to specific NPOs identified to be at risk. The IN should also clearly state that FATF's definition of NPOs is only a starting point for the risk assessment, and not a description of all organizations to be subject to supervision and monitoring measures. Section 5b of the current IN should be removed, as it comprises a checklist of supervision and monitoring measures that may or may not be appropriate under a true risk-based approach. The IN should also make it clear that risk mitigation measures must be flexible so that small NPOs are not held to standards that are impracticable to implement.

Thank you for the opportunity to comment on the IN revision. Please consider the Council on Foundations a resource on the grantmaking community as you move forward with the revision.

6. Specific proposal to amend the text of the Interpretive Note to Recommendation 8 (INR.8)

Please provide your specific proposals to amend the text of INR.8, if any, in tracked changes. This exercise is intended to be a focused revision of INR.8 and the FATF currently has no plan to re-open the revision of the FATF Standard as a whole.

INTERPRETIVE NOTE TO RECOMMENDATION 8
(NON-PROFIT ORGANISATIONS)**A. INTRODUCTION**

1. Non-profit organisations (NPOs) play a vital part ~~role~~ in the world and national economies.~~y~~ ~~and in many national economies and social systems.~~ They play a key role in social systems, increasing social cohesion and maintaining and securing human rights and piece on the ground. They reduce the conditions that drive radicalisation by resposning to communities expressed needs. ~~Their efforts complement the activity of the governmental and business sectors in providing essential services, comfort and hope to those in need around the world.~~ The ongoing international campaign against terrorist financing has indicated ~~unfortunately demonstrated, however,~~ that terrorists and terrorist organisations may exploit some ~~the~~ NPOs in specific circumstances or create sham charities in order ~~sector~~ to raise and move funds, provide logistical support, encourage terrorist recruitment, or otherwise support terrorist organisations and operations. This misuse not only facilitates terrorist activity, but also undermines donor confidence and jeopardises the very integrity of NPOs. Therefore, protecting the NPO sector from terrorist abuse is both a critical component of the global fight against terrorism and a necessary step to preserve the integrity of NPOs.
2. NPOs may be vulnerable to abuse by terrorists for a variety of reasons. NPOs enjoy the public trust, have access to considerable sources of funds, and are often cash-intensive. Furthermore, some NPOs have a global presence that provides a framework for national and international operations and financial transactions, often within or near those areas that are most exposed to terrorist activity. **Terrorists and terrorist organisations may in specific cases take advantage of NPOs to infiltrate the sector and misuse NPO funds and operations to cover for, or support, terrorist activity. Depending on the country, some governments may over-regulate NPOs in the name of security. The tendency toward radicalization increases in such settings, where citizens have inadequate independent and protected space to organize around community needs. Depending on the legal form of the NPO and the country, NPOs may often be subject to little or no governmental oversight (for example, registration, record keeping, reporting and monitoring), or few formalities may be required for their creation (for example, there may be no skills or starting capital required, no background checks necessary for employees). Terrorist organisations have taken advantage of these characteristics of NPOs to infiltrate the sector and misuse NPO funds and operations to cover for, or support, terrorist activity.**

B. OBJECTIVES AND GENERAL PRINCIPLES

3. The objective of Recommendation 8 is to ensure that NPOs are not misused by terrorist organisations: (i) to pose as legitimate entities; (ii) to exploit legitimate entities as conduits for terrorist financing, including for the purpose of escaping asset freezing measures; or (iii) to conceal or obscure the clandestine diversion of funds intended for legitimate purposes, but diverted for terrorist purposes. In this Interpretive Note, the approach taken to achieve this objective is based on the following general principles:

(a) Past and ongoing abuse of the NPO sector by terrorists and terrorist organisations requires countries to adopt measures **to assess the risk of the NPO sector and to apply a risk-based and proportionate approach (RBA) to ensure that measures to prevent or mitigate terrorist financing are commensurate with the risks identified. Strict safeguards are essential to prevent politically motivated restrictions on NPOs in order to avoid the public perception that there is no protected space of NPOs. Limits on fundamental rights of association, assembly and expression are key push factors in driving violent extremism. both: (i) to protect the sector against such abuse, and (ii) to identify and take effective action against those NPOs that either are exploited by, or actively support, terrorists or terrorist organisations.**

(b) Measures adopted by countries to prevent and mitigate ~~protect the NPO sector from~~ terrorist financing abuse of NPOs at risk should not disrupt or discourage legitimate charitable activities. ~~Rather, such measures should promote transparency and engender greater confidence in the sector, across the donor community and with the general public, that charitable funds and services reach intended legitimate beneficiaries.~~ **Based on a national risk assessment, countries should apply a risk-based and proportionate approach (RBA) to ensure that measures to prevent or mitigate terrorist financing are commensurate with the risks identified , do not inadvertently suppress protected political and human rights and ensure that NPOs can maintain access to established and regulated financial services.** ~~Systems that promote achieving a high degree of transparency, integrity and public confidence in the management and functioning of all NPOs are integral to ensuring the sector cannot be misused for terrorist financing.~~

(c) A targeted approach in dealing with the terrorist threat to the NPO sector is essential given the diversity within individual national sectors, the differing degrees to which parts of each sector may be vulnerable to misuse by terrorists, the need to ensure that legitimate charitable activity continues to flourish, and the limited resources and authorities available to combat terrorist financing in each country.

(f) Flexibility in developing a national response to terrorist financing in the NPO sector is also essential, in order to allow it to evolve over time as it faces the changing nature of the terrorist financing threat.

Measures adopted by countries to identify and take effective action against NPOs that either are exploited by, or actively support, terrorists or terrorist organisations should aim to

prevent and prosecute, as appropriate, terrorist financing and other forms of terrorist support. Where NPOs suspected of, or implicated in, terrorist financing or other forms of terrorist support are identified, the first priority of countries must be to investigate and halt such terrorist financing or support. Actions taken for this purpose should, to the extent reasonably possible, avoid any negative impact on innocent and legitimate beneficiaries of charitable activity. **Such action should conform to the rule of law and due process, including adequate notice of the substance of charges and a meaningful opportunity to respond for NPOs subject to enforcement action. In all cases charitable funds must be used solely for charitable purposes.**~~However, this interest cannot excuse the need to undertake immediate and effective actions to advance the immediate interest of halting terrorist financing or other forms of terrorist support provided by NPOs.~~

(d) Developing cooperative relationships among the public, private and NPO sector is critical to increase ~~raising~~ awareness and fostering capabilities to ~~combat~~ address potential risks of terrorist abuse within the sector. Countries should encourage the development of academic research on, and information-sharing in, the NPO sector to address terrorist financing related issues to prevent the FATF standards from silencing the legitimate NPO sector, countries should encourage and support research that monitors and reports on the effects of R8 and other R have on the sector.

~~(e) A targeted approach in dealing with the terrorist threat to the NPO sector is essential given the diversity within individual national sectors, the differing degrees to which parts of each sector may be vulnerable to misuse by terrorists, the need to ensure that legitimate charitable activity continues to flourish, and the limited resources and authorities available to combat terrorist financing in each country.~~

~~(f) Flexibility in developing a national response to terrorist financing in the NPO sector is also essential, in order to allow it to evolve over time as it faces the changing nature of the terrorist financing threat.~~

C. MEASURES

4. Countries should undertake domestic reviews of their NPO sector, or have the capacity to obtain timely information on its activities, size and other relevant features. In undertaking these assessments, countries that use open source information should examine and verify it prior to relying on it ~~should use all available sources of information~~ in order to identify features and types of NPOs, which, by virtue of their activities or characteristics, are at risk of being misused for terrorist financing.¹ In addition, data protection and the right to privacy should be respected. Countries should also periodically reassess the sector by reviewing new information on the sector's potential vulnerabilities to terrorist activities.

¹ For example, such information could be provided by regulators, tax authorities, FIUs, donor organisations or law enforcement and intelligence authorities.

Countries should assess whether a potential risk for terrorist financing abuse may have already been addressed by existing laws/regulations including self-regulatory tools (even though the laws may have not been drafted with this intention in mind). Countries should only consider appropriate and targeted measures if a risk has been identified

5. There is a diverse range of approaches of how countries could mitigate risks which were potentially identified by the review of the sector. An effective approach, should involve the following elements: (a) ongoing outreach to the sector (b) proportionate and risk based supervision or monitoring c) effective investigation and information gathering and d) effective mechanisms for international cooperation. The following measures represent specific actions that countries should take with respect to each of these elements, in order to mitigate an identified risk of the sector.

~~There is a diverse range of approaches in identifying, preventing and combating terrorist misuse of NPOs. An effective approach, however, is one that involves all four of the following elements: (a) outreach to the sector, (b) supervision or monitoring, (c) effective investigation and information gathering and (d) effective mechanisms for international cooperation. The following measures represent specific actions that countries should take with respect to each of these elements, in order to protect their NPO sector from terrorist financing abuse.~~

(a) Outreach to the NPO sector concerning terrorist financing issues

~~(i) Countries should have clear policies to promote transparency, integrity and public confidence in the administration and management of all NPOs.~~

~~(ii) Countries should encourage or undertake a two way dialogue and outreach programmes to deepen the raise awareness in the NPO sector about potential the vulnerabilities of NPOs to terrorist abuse and terrorist financing risks, and the measures that NPOs can take to protect themselves against such abuse.~~

~~(iii) Countries should work with the NPO sector to develop and refine best practices to address terrorist financing risks and vulnerabilities and thus protect the sector from terrorist abuse.~~

~~(iv) Countries should encourage NPOs to conduct transactions via regulated financial channels, wherever feasible, keeping in mind the varying capacities of financial sectors in different countries and in different areas of urgent charitable and humanitarian concerns. Countries should facilitate access to regulated financial channels for NPOs and encourage NPOs to conduct transactions via regulated financial channels.~~

(b) Proportionate and risk based supervision or monitoring of the NPO sector

Countries should take steps to promote effective supervision or monitoring of those NPOs at risk and avoid over-regulation, which disrupts the activities of legitimate NPOs. In practice, countries should consider standards that apply only to NPOs which have been identified to be at risk (either through laws or

~~self-regulatory mechanisms). Countries should take steps to promote effective supervision or monitoring of their NPO sector. In practice, countries should be able to demonstrate that the following standards apply to NPOs which account for (1) a significant portion of the financial resources under control of the sector; and (2) a substantial share of the sector's international activities.~~

~~(i) NPOs should maintain information on: (1) the purpose and objectives of their stated activities; and (2) the identity of the person(s) who own, control or direct their activities, including senior officers, board members and trustees. This information should be publicly available either directly from the NPO or through appropriate authorities.~~

~~(ii) NPOs should issue annual financial statements that provide detailed breakdowns of incomes and expenditures.~~

~~(iii) NPOs should be licensed or registered. This information should be available to competent authorities.²~~

~~(iv) NPOs should have appropriate controls in place to ensure that all funds are fully accounted for, and are spent in a manner that is consistent with the purpose and objectives of the NPO's stated activities.~~

~~(v) NPOs should follow a "know your beneficiaries and associate NPOs" rule, which means that the NPO should make best efforts to confirm the identity, credentials and good standing of their beneficiaries and associate NPOs. NPOs should also undertake best efforts to document the identity of their significant donors and to respect donor confidentiality.~~

~~(vi) NPOs should maintain, for a period of at least five years, records of domestic and international transactions that are sufficiently detailed to verify that funds have been spent in a manner consistent with the purpose and objectives of the organisation, and should make these available to competent authorities upon appropriate authority. This also applies to information mentioned in paragraphs (i) and (ii) above.~~

~~(vii) Appropriate authorities should monitor the compliance of NPOs with the requirements of this Recommendation.³ Appropriate authorities should be able~~

²—~~Specific licensing or registration requirements for counter terrorist financing purposes are not necessary. For example, in some countries, NPOs are already registered with tax authorities and monitored in the context of qualifying for favourable tax treatment (such as tax credits or tax exemptions).~~

³—~~In this context, rules and regulations may include rules and standards applied by self regulatory organisations and accrediting institutions.~~

~~to apply effective, proportionate and dissuasive sanctions for violations by NPOs or persons acting on behalf of these NPOs.⁴~~

(c) Effective information gathering and investigation

- (i) Countries should ensure effective cooperation, coordination and information-sharing to the extent possible among all levels of appropriate authorities ~~or organisations~~ that hold relevant information on NPOs.
- (ii) Countries should have investigative expertise and capability to examine those NPOs suspected of either being exploited by, or actively supporting, terrorist activity or terrorist organisations.
- (iii) Countries should ensure that full access to information on the administration and management of a particular NPO (including financial and programmatic information) may be obtained during the course of an investigation.
- (iv) Countries should establish appropriate mechanisms to ensure that, when there is suspicion or reasonable grounds to suspect that a particular NPO: (1) is a front for fundraising by a terrorist organisation; (2) is being exploited as a conduit for terrorist financing, including for the purpose of escaping asset freezing measures; or (3) is concealing or obscuring the clandestine diversion of funds intended for legitimate purposes, but redirected for the benefit of terrorists or terrorist organisations, this information is promptly shared with relevant competent authorities, in order to take preventive or investigative action.

(d) Effective capacity to respond to international requests for information about an NPO of concern

Consistent with Recommendations on international cooperation, countries should identify appropriate points of contact and procedures to respond to international requests for information regarding particular NPOs suspected of terrorist financing or other forms of terrorist support.

D. RESOURCES FOR SUPERVISION, MONITORING, AND INVESTIGATION

6. Countries should provide their appropriate authorities responsible for supervision, monitoring and investigation of their NPO sector with adequate financial, human and technical resources.

**INTERPRETIVE NOTE TO RECOMMENDATION 8
(NON-PROFIT ORGANISATIONS)**

A. INTRODUCTION

1. ~~Non-profit organisations (NPOs) play a vital role in the world economy and in many national economies and social systems. Their efforts complement the activity of the governmental and business sectors in providing essential services, comfort and hope to those in need around the world. The ongoing international campaign against terrorist financing has unfortunately demonstrated, however, that terrorists and terrorist organisations exploit the NPO sector to raise and move funds, provide logistical support, encourage terrorist recruitment, or otherwise support terrorist organisations and operations. This misuse not only facilitates terrorist activity, but also undermines donor confidence and jeopardises the very integrity of NPOs. Therefore, protecting the NPO sector from terrorist abuse is both a critical component of the global fight against terrorism and a necessary step to preserve the integrity of NPOs.~~
2. ~~NPOs may be vulnerable to abuse by terrorists for a variety of reasons. NPOs enjoy the public trust, have access to considerable sources of funds, and are often cash-intensive. Furthermore, some NPOs have a global presence that provides a framework for national and international operations and financial transactions, often within or near those areas that are most exposed to terrorist activity. Depending on the legal form of the NPO and the country, NPOs may often be subject to little or no governmental oversight (for example, registration, record-keeping, reporting and monitoring), or few formalities may be required for their creation (for example, there may be no skills or starting capital required, no background checks necessary for~~

employees). Terrorist organisations have taken advantage of these characteristics of NPOs to infiltrate the sector and misuse NPO funds and operations to cover for, or support, terrorist activity.

B. OBJECTIVES AND GENERAL PRINCIPLES

~~3. THE OBJECTIVE OF RECOMMENDATION 8 IS TO ENSURE THAT NPOS ARE NOT MISUSED BY TERRORIST ORGANISATIONS: (I) TO POSE AS LEGITIMATE ENTITIES; (II) TO EXPLOIT LEGITIMATE ENTITIES AS CONDUITS FOR TERRORIST FINANCING, INCLUDING FOR THE PURPOSE OF ESCAPING ASSET FREEZING MEASURES; OR (III) TO CONCEAL OR OBSCURE THE CLANDESTINE DIVERSION OF FUNDS INTENDED FOR LEGITIMATE PURPOSES, BUT DIVERTED FOR TERRORIST PURPOSES. IN THIS INTERPRETIVE NOTE, THE APPROACH TAKEN TO ACHIEVE THIS OBJECTIVE IS BASED ON THE FOLLOWING GENERAL PRINCIPLES:~~

~~(A) PAST AND ONGOING ABUSE OF THE NPO SECTOR BY TERRORISTS AND TERRORIST ORGANISATIONS REQUIRES COUNTRIES TO ADOPT MEASURES BOTH: (I) TO PROTECT THE SECTOR AGAINST SUCH ABUSE, AND (II) TO IDENTIFY AND TAKE EFFECTIVE ACTION AGAINST THOSE NPOS THAT EITHER ARE EXPLOITED BY, OR ACTIVELY SUPPORT, TERRORISTS OR TERRORIST ORGANISATIONS.~~

~~(B) MEASURES ADOPTED BY COUNTRIES TO PROTECT THE NPO SECTOR FROM TERRORIST ABUSE SHOULD NOT DISRUPT OR DISCOURAGE LEGITIMATE CHARITABLE ACTIVITIES. RATHER, SUCH MEASURES SHOULD PROMOTE TRANSPARENCY AND ENGENDER GREATER CONFIDENCE IN THE SECTOR, ACROSS THE DONOR COMMUNITY AND WITH THE GENERAL PUBLIC, THAT CHARITABLE FUNDS AND SERVICES REACH INTENDED LEGITIMATE BENEFICIARIES. SYSTEMS THAT PROMOTE ACHIEVING A HIGH DEGREE OF TRANSPARENCY, INTEGRITY AND PUBLIC CONFIDENCE IN THE MANAGEMENT AND FUNCTIONING OF ALL NPOS ARE INTEGRAL TO ENSURING THE SECTOR CANNOT BE MISUSED FOR TERRORIST FINANCING.~~

- (c) ~~Measures adopted by countries to identify and take effective action against NPOs that either are exploited by, or actively support, terrorists or terrorist organisations should aim to prevent and prosecute, as appropriate, terrorist financing and other forms of terrorist support. Where NPOs suspected of, or implicated in, terrorist financing or other forms of terrorist support are identified, the first priority of countries must be to investigate and halt such terrorist financing or support. Actions taken for this purpose should, to the extent reasonably possible, avoid any negative impact on innocent and legitimate beneficiaries of charitable activity. However, this interest cannot excuse the need to undertake immediate and effective actions to advance the immediate interest of halting terrorist financing or other forms of terrorist support provided by NPOs.~~
- (d) ~~Developing cooperative relationships among the public, private and NPO sector is critical to raising awareness and fostering capabilities to combat terrorist abuse within the sector. Countries should encourage the development of academic research on, and information sharing in, the NPO sector to address terrorist financing related issues.~~

~~(e) — A targeted approach in dealing with the terrorist threat to the NPO sector is essential given the diversity within individual national sectors, the differing degrees to which parts of each sector may be vulnerable to misuse by terrorists, the need to ensure that legitimate charitable activity continues to flourish, and the limited resources and authorities available to combat terrorist financing in each country.~~

~~(f) — Flexibility in developing a national response to terrorist financing in the NPO sector is also essential, in order to allow it to evolve over time as it faces the changing nature of the terrorist financing threat.~~

C. MEASURES

~~4. — COUNTRIES SHOULD UNDERTAKE DOMESTIC REVIEWS OF THEIR NPO SECTOR, OR HAVE THE CAPACITY TO OBTAIN TIMELY INFORMATION ON ITS ACTIVITIES, SIZE AND OTHER RELEVANT FEATURES. IN UNDERTAKING THESE ASSESSMENTS, COUNTRIES SHOULD USE ALL AVAILABLE SOURCES OF INFORMATION IN ORDER TO IDENTIFY FEATURES AND TYPES OF NPOS, WHICH, BY VIRTUE OF THEIR ACTIVITIES OR CHARACTERISTICS, ARE AT RISK OF BEING MISUSED FOR TERRORIST FINANCING.⁵ COUNTRIES SHOULD ALSO PERIODICALLY REASSESS THE SECTOR BY REVIEWING NEW INFORMATION ON THE SECTOR'S POTENTIAL VULNERABILITIES TO TERRORIST ACTIVITIES.~~

~~5. There is a diverse range of approaches in identifying, preventing and combating terrorist misuse of NPOs. An effective approach, however, is one that involves all four of the following elements: (a) outreach to the sector, (b) supervision or monitoring, (c) effective investigation and information gathering and (d) effective mechanisms for international cooperation.
